Poland

Poland is located in heart of Europe where East meets West. If you are interested in culture and history you will find here many interesting places. If you like landscape, trekking or other outdoor activities you will be glad too. Poland's territory extends across several geographical regions. The country spreads from the Baltic Sea in the north, through the lakes and deep forests to the hills, rocks and the mountains with walking routes, and adventure hiking areas in the very south. Poland has 21 mountains over 2,000 metres (6,600 ft) in elevation, all in the High Tatras. With almost ten thousand closed bodies of water covering more than one hectare (2.47 acres) each, the country has one of the highest numbers of lakes in the world.

This country is quite recent member of EU (since 2004), has a long tradition in education (one of the first European universities was created in Poland). Comparing to the other EU members the living expenses and educational costs in Poland are still lower.

2. The weather

The climate has four seasons; green spring, gold and sunny summer, red and yellow autumn, and snowy, white winter. The climate is more oceanic in the north and west and becomes gradually warmer and continental as one moves south and east. Summers are generally warm, with average temperatures between 20 °C (68 °F) and 27 °C (81 °F). Winters are cold, with average temperatures around 3 °C (37 °F) in the northwest and -8 °C (17.6 °F) in the northeast.

3. How to obtain Polish Visa

For non-EU citizens an entry visa is required. An application form for a Polish visa is available at:

https://www.msz.gov.pl/en/travel_to_poland/visa/

A Polish visa will be issued upon the presentation of the health insurance certificate and the originals of acceptance letters.

4. Academic calendar

Academic year in WUT begins with the first full week of October. The year is split into 2 semesters (15 weeks each). There are several breaks: the Christmas break lasting up to the last two weeks of December, a mid-term break after the first semester (this is usually a week in February) and the summer break which lasts from the end of June till the beginning of September. The first 2 weeks of September are reserved for second exam session of the previous semester. **To match the study scheme with other EMARO/JEMARO universities the EMARO/JEMARO students will nominally have the second exam session not in the first days of July.** The regular academic year starts in first days of October.

5. Preparing your arrival

The Faculty is not responsible for accommodation. This is the area of activity of Student's Union.

Students of Warsaw University of Technology live in 11 student halls of residence. Students live in single, double or triple rooms or in segments which consists of two or three rooms (other residence halls). They can use the gym, swimming pool, library, TV room, laundry and kitchen.

In some halls students who live on one floor share the bathrooms, toilets and kitchens.
