

Motivation Letter Template for JEMARO Programme Application

In order to show your motivation for the JEMARO programme, your letter must at least include the following points, and it will be limited to two pages:

- Personal introduction.
- Recall of the undergraduate curriculum and highlight links to JEMARO Master programme.
- State in short why you want to apply to JEMARO and why you chose a given robotics-related research topic (Control, Mechatronics – Robotics, Human Interface – Signal Processing, Biological Information) to work on during your Master.
- Develop your strongest qualifications, past experiences and qualities that will help you to succeed in JEMARO.
- Develop what will be your professional project after getting your master's degree.
